And now for something completely different...

Well, we did it. We survived five years of pharmacy school, and as we prepare to move on to bigger and better things, we recognize our friends, teachers, and all the memories of these years. The yearbook staff and I have worked hard to put together this book of memories.

Before I thank everyone that helped make this yearbook come together, I'd like to explain the name Profile. Prior to this year, the school of pharmacy's yearbook was called the Script. We felt that it was time for a change, and changed the name to the Profile. Keeping with this trend, we decided to try some different ideas concerning layouts, while maintaining the unique traditions of the pharmacy yearbook. It's been a lot of work, but also a lot of fun.

I'll take this time to thank Kim Lau, Barry Graime, Dora Psiakis, Nicole Lazarus, Jean Hicks, Mark Duprey, Kim Gura, Rob Barnes and Lilit Masarjian. A special thanks to Professor Kass for your interest and help. Thanks also to everyone who donated resources and/or time to make this book possible.

CONGRATULATIONS TO THE CLASS OF 1997.

Jim O'Connell
Editor
Oath of a Pharmacist

At this time, I vow to devote my professional life to the service of mankind through the profession of pharmacy.

I will consider the welfare of humanity and relief of human suffering my primary concerns.

I will use my knowledge and skills to the best of my ability in serving the public and other health professionals.

I will do my best to keep abreast of developments and maintain professional competency in my profession of pharmacy.

I will obey the laws governing the practice of pharmacy and will support enforcement of such laws.

I will maintain the highest standards of moral and ethical conduct.

I take these vows voluntarily with the full realization of the confidence and responsibility with which I am entrusted by the public.

preprred by the American Association of Colleges of Pharmacy

I'd like to thank everyone who helped me obtain my education, especially my Mom. Although things were sometimes harder for her, she always made them easier for me. My goal in life is to be a good husband and father, to be successful in my career as well as life, and to always strive to do the best I possibly can.

Friends, our time together is at an end... well, enough of that stuff. Libby, Rachel, Joy, Stacey, and all the Pharm. D.'s, good luck on clinical. Don't no professors lectures could hold a candle to yours. Jim, may the force be with us always. Thank you to all my family, friends, and professors, and especially to Mom, Dad, Jean, Jimmy, Rich, and Eric, whose contributions may have been underrated, but without whom I might never have made it this far. Congratulations, everyone, and good luck.

The past 3 years were filled with so many memories but certain ones stand out.
... studying with Joe and Theresa during Hell Quarter.
... running from the Banditos in Indiana.
... hanging out on Bourbon Street.
... the endless days at youville.

Instruction ends in the classroom, but learning ends only with life. I will always remember the moments of fun and hard work that I have shared with my friends throughout the college years. I want to thank my loving husband and family for love and support.

Future predictions for post Texas???

Thanks God! I am finally done. Special thanks to Nancy and Ann. I would like to say thank you to my little girlfriend (Thuy-Ly). Without your help, support, encouragement, and love, I would not be successful. Mom, Dad, Brother and Sister, I am proud to announce that I am finally through. Hope you all have a great life back in Vietnam. I hope one day we can be together and have a warm and cheerful family. Miss you all!!!

Wow, 5 years - gone. It’s been a long road but we’re almost Pharmacists. Good luck to my back row friends Joy, Libby, Rachel, Dori, & Barry. Barry - did I mention I’m glad I didn’t do that 6th year? To Meg - “Ah told em we already got one.”

Thanks to my family who helped me keep my sanity for 5 years. Wish you were here Jean. I’ll see everyone at a reunion, I promise. Dom should have 9 million kids by then. “No job is too big; no fee is too big!” - Dr. Peter Venkman

This is just the beginning of a whole new adventure. I would like to wish everyone in the Class the best of careers and good fortune. I would also like to thank the wonderful faculty at NU and most of all I would like to thank my family and friends for always being there with support and encouragement.

Drug Expo '97

The annual Drug Expo gives students the chance to meet with representatives from various areas of pharmacy practice. Co-sponsored by ASP and Rho Chi, the Expo gives students the chance to network and hone their job hunting skills.

Anyone want to be a sales rep?

Do you have two positions for sisters?

This is for the free soup, right?
Every year, the Academy of Students of Pharmacy holds its annual picnic towards the end of the spring quarter. Students and faculty alike spend the afternoon enjoying the warm weather and a break from the books. The picnic also is the place for the annual softball game between the faculty and the students. Last spring the students lost to their professors 11-8. Better luck next year team!

Like all honor societies, Rho Chi has always had as its fundamental objective the stimulation and recognition of academic excellence. Through its activities the Society has also served as an instrument for the advancement of the profession of pharmacy. Wearers of the Rho Chi key comprise an intellectual force who seek to foster an appreciation of the intellect in all its ramifications outside as well as within pharmacy.
AN ODE to THOSE CRAZY NIGHTS,  
AND AN ODE to THOSE PLUSH LITTLE ROOMS in DODGE

There once was a room in Dodge  
Where we spent all day indulged  
With Med Chem, structures and drugs  
Despite the weather and our friends’ hugs.

We learned of all the blockers  
Alpha, beta’s and the others  
Cardiac glycosides, the positive ones  
To us known as the cardio-tonic glycones.

The anti-arrhythmics - the five classes  
Sodums in I, Beta’s in Class II  
Potassium in III, with miscellaneous in IV.  
Don’t forget Amiodarone in III, Amrinone Type III PDE.

And how can we forget the Calciums,  
With their negative cardiac functions  
Our teachers thought we needed more interactions  
Decided to give us the ‘statins with HMG Reductions.

These are the days of us, the Pharmacy kids  
Wondering, is it possible to get an A in this?  
Should we listen to music on our headphones  
Or have a beer with Dr. Jones?

Either way, we came with the sun full of splendor,  
And yet we leave with the moon in all its wonder.
