I am sure that you will miss Mrs. Robertson as much as we, but I hope that things will continue to go well under our new coordinator, Mrs. Butters.  

Although I don’t know the "parents" as well as I would like, I do feel close to you all and am delighted that you are part of the program.  

It occurred to me when I saw this announcement that you might want to use the occasion to give your children and your special child an opportunity to come into Roxbury for an event.  

If at all possible, I hope you will try to attend.  

.... a home base for people working together to achieve in Roxbury, a renewed community, in Boston, greater human understanding and dignity.
