MONDAY
JANUARY 13
2020
RAYTHEON AMPHITHEATER
EGAN RESEARCH CENTER
4:30 - 7:30PM

A panel of Bouvé College of Health Sciences clinical faculty will provide a rare view of their work in the field and expose some of the most vexing challenges facing healthcare.

Dean Carmen Sceppa invites researchers from across Northeastern to step in, brainstorm possible collaborations, and discover innovative translational opportunities in human health, technology and data.
